

# Wireless 8 In-Out Industry Control Box

Model: **RD-800**

RD-800 can be used as industrial control and provide wireless control interface.  
RD-800 offer 8 sets of control signal input and 8 sets of equipment control output.  
It's only needed several simple wiring steps and then change to a wireless control environment. It can effectively reduce the cost of connecting equipment.

## Feature

- ▶ For duplex wireless RF transceiver product
- ▶ Wireless 8 in-out control box
- ▶ 8 sets of equipment input control
- ▶ 8 sets of equipment output control
- ▶ Effective reducing the connecting cost of the equipment

## Specification

- ▶ Frequency : 922~928MHz
- ▶ Distance : 150M (Straight-line distance under open space)
- ▶ Number of channels : 16
- ▶ Consumption current : 36mA (MIN disconnect)

RD-800 可做為工業控制設備介面，提供8組控制訊號輸入及8組控制訊號輸出，只需幾個簡單的步驟，即可將有線的環境轉變成無線控制環境，有效降低連接設備的成本。

## 特色

- ▶ RF全雙向傳輸
- ▶ 無線接點控制盒
- ▶ 8組控制訊號輸入
- ▶ 8組控制訊號輸出
- ▶ 有效降低連接設備成本

## 應用

- ▶ 自動化行業
- ▶ 升降機
- ▶ 遙控吊車
